

OUTSOURCING

CONCENTRATE ON YOUR CORE BUSINESS. If the product life cycle skips from saturation phase to degeneration phase or one of the unprofitable, personnel-intensive business areas is no longer one of the core competencies, outsourcing is the solution.

With our outsourcing experience of more than 15 years, we take over complete production areas, including project management, supply chain management and quality management to Hungary.

BENEFITS OF OUTSOURCING:

- Concentration on core business
- Reduction of production costs
- Reduction of administration costs
- Reduction of inventory costs
- Less process complexity

OUR SERVICE:

- Project Management
- Support in supply chain management
- Extended manufacturing competences
- Technical support for production relocation
- Possibility of production in the name of customer
- High flexibility
- German quality standards

GLOBAL ASSEMBLY LOCATIONS

Think Global. Act Local. We follow our clients. The key factor behind our success is having an onsite presence at the customers' facilities. With sites in all the major growth markets, Prettl is extremely well positioned in the price-sensitive automotive sector and can guarantee 'local content' demands.

METAL POWER
FOR YOUR SUCCESS

PRETTL METAL COMPONENTS – WHO WE ARE

Automotive, Appliance Solutions, Electronics, Energy and ProSys – 5 divisions served as one by the Prettl Produktions Holding GmbH, the Prettl Beteiligungs Holding GmbH and the Prettl Foundation. Together they form the Prettl group. Founded in 1953 by Franz W. Prettl the family-run company group is now a successful, international conglomerate with over 9,500 employees. These are employed at more than 35 locations in over 25 countries in fully independent companies.

Prettl metal components (PMC) is part of the Automotive Division and a manufacturer of metal technology and metal components. The company is focusing on small and medium series production. With over 350 employees in Germany and Hungary, well – known Tier 1 suppliers and OEMs belong to the customer base. The affiliation to the Prettl group provides us with unique possibilities of using Prettl group synergies and make them accessible to our customers.

Our aim is to be the world market leader in the production of metal seat structures and exhaust technology in niche segments.

OUR MANUFACTURING COMPETENCIES

- Stamping & Deep Drawing
- Laser Cutting & Bending
- Welding
- Surface Treatment
- Assembly
- Own Tool Shop

OUR FOCUS

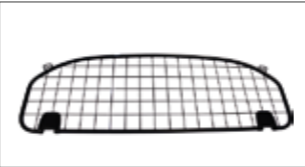

In close cooperation with our customers and with our market and service orientation we develop customer-specific solutions in metal components. We support the entire product development process – from prototyping to serial production. A holistic process consideration is at the forefront. A professional project management accompanies the entire processes and ensures that projects are completed successfully.

We are experts for the following applications in automotive industry:

SEAT STRUCTURES

ASSEMBLY

OUTSOURCING

EXHAUST COMPONENTS

TUBES & SYSTEMS

COMPLEX WELDING STRUCTURES

OUR COMPONENTS – IN A VARIETY OF AUTOMOTIVE APPLICATIONS
